

# NRC MARINE B.V.

# ABOUT NRC MARINE

NRC Marine was established in 2020 in Rotterdam, Netherlands for the sale, repair and assembly services of Ship and Yacht Electronic radio communication devices, ship control and certification services under the name of international ship classifications. NRC Marine Electronics, through its expert and highly skilled technician team, offers customers more unique technical service expertise with less downtime, quickly and with lower operating expenses. Authorized technicians and engineers are constantly keeping up with the latest technology, standards and technologies.

The NRC Marine is certified by most manufacturers of marine and river equipment in the fields of radio, navigation, automation, navigation devices, fire stations. Specialists of the staff constantly undergo courses and are sent for training in manufacturing companies to update knowledge and teach new equipment. Surveyors are certified as certified radio surveyors from all IACS members and other class and class. The main objective of the company is to satisfy its customers in the field of navigation and communication in the global network with high-quality technical services around the world.
